

POLYSIL 20X

Colloidal silica

Polysil 20X is an alkaline, aqueous dispersion of colloidal silica with approximately 18% solids by weight, Mean Particle Size is of 7nm, pH-9.8, Surface Area 425 m²/g, Density 1.13 g/cc.

The dispersion is sodium-stabilized, and its amorphous silica particles carry a negative surface charge. These particles are discrete, slightly irregular in shape, and have a narrow particle size distribution. With a translucent liquid appearance and slightly higher viscosity than water, Polysil 20X serves as a versatile solution for various industrial applications. Designed for global distribution, this product exemplifies Polytrachem's commitment to quality and innovation.

% solids	18%
Mean Particle Size (nm)	7
pH	9.8
Surface Area (m ² /g)	425
Density (g/cc)	1.13
Applications	Beverage Clarification Water Treatment, Concrete & Mortar
Functions	Densifier for cement/concrete

Storage

Polysil 20X should be transported and stored at temperatures ranging from 5-35°C (40-95°F). Freezing the silica dispersion will result in irreversible precipitation of the silica. For bulk storage, tanks should be sealed and made from materials such as plastic, fiberglass-reinforced plastic, or stainless steel. Packaged goods in translucent containers should be kept away from direct sunlight or bright light. When stored under the recommended conditions, Polysil 20X has a shelf life of 12 months from the date of production.

Packaging and transport

Polysil 20X is available in bulk, 1000-liter IBCs, and 220-liter plastic drums

Safety and Handling

Before using Polysil 20X, consult the relevant Material Safety Data Sheet. Polysil 20X is an aqueous dispersion of amorphous silica and is considered mildly irritating but not harmful. As it may cause dryness of the skin, protective gloves should be worn during handling. If skin contact occurs, rinse thoroughly with water. Safety glasses are recommended to protect against potential splashes. In case of eye contact, flush with plenty of water and seek medical attention if needed.

Certifications

ISO 9001 and 14001 certified.
